# FOREWORD

*Five*  
SEASONS  
SINCE 1982

# Explore the fifth season.

When the market is tough, it's time to double down on your strengths and differentiate yourself from the competition.

The current market is creating opportunities for those who are willing to adapt and embrace change.

We believe that everyone should have the opportunity to experience the joy of spending time outdoors. That's why we make our clothing accessible to people of all ages, income levels, and fitness levels.

For our Autumn/Winter 25/26 collection we are working even closer with our suppliers to create a collection with focus on the future in terms of sustainability, function and durability to make sure our garments last for many years to come.

We hope that our clothing will inspire you to get outside and explore. The world is waiting for you!

**"The best way to predict the future is to create it!"**

Erik Johansson, CEO

# Our responsibility

The seasons changes everywhere around the world. Climate is getting warmer with more extreme weather and winters becomes shorter. It is our responsibility to strive for a better future for the next generations. At Five Seasons we always want to make active choises regarding reducing our carbon footprint.

We take pride in always offer high quality to a fair price, without making ethically or environmentally insensitive decisions. We work effectively with our suppliers on a daily basis to source and develop our materials, fillings and surface treatments that both nature and people feel good about. This is what we do today - what we strive to make better for tomorrow; for a sustainable future.

The world's leading recycled fiber is made for the good of tomorrow.

Let's introduce REPREEVE, a material made from recycled plastic and pet-bottles. Several of AW24 key garments have been developed with extra consideration for the environment, something that both we at Five Seasons and our consumers value highly.

"Billions of plastic bottles go into landfills every year. REPREEVE is the leading, most trusted, branded performance fiber made from recycled materials (including plastic bottles). REPREEVE transforms recycled bottles into amazing fibers, used by the world's leading brands to make athletic and fashion apparel and more. The process embeds properties like wicking, adaptive warming and cooling, water repellency, and more at the fiber level.

For reliable, durable quality."

Reduce harmful impact of production to people and the environment.

All our recycled materials are certified with GRS (Global Recycled Standard) which is a certificate for recycled materials. This means that the production / product is tested for chemicals / heavy metals. What is recycled can be PET bottles or textiles or a mixture.

"The Recycled Claim Standard (RCS) and Global Recycled Standard (GRS) are international, voluntary standards that set requirements for third-party certification of recycled input and chain of custody. The shared goal of the standards is to increase the use of recycled materials. The GRS includes additional criteria for social and environmental processing requirements and chemical restrictions."

A professional, third party certification body audits each stage in the supply chain.

All our down garments are certified with RDS-Down to ensure the highest possible extent that down and feathers do not come from animals in a supply chain that have been subjected to any unnecessary harm.

Help save the earth's non-renewable resources.

All our styles are made of recycled zippers which are manufactured by SBS Zipper. The zippers are made of 100% recyclable PET water bottles and are certified by GRS (Global Recycled Standard) which is a certificate for recycled materials. By reusing plastic for new products, we can reduce the amount of new plastic produced and help save the earth's non-renewable resources.

SBS Zipper Manufacturer is a leading company in the zipper industry, renowned for its high-quality products and innovative designs. The company adheres to stringent quality control measures at every stage of the production. In addition to its focus on quality, SBS is also recognized for its commitment to sustainability. The company employs eco-friendly practices in its manufacturing processes, emphasizing the importance of environmental responsibility.

"The Responsible Down Standard (RDS) aims to ensure that down and feathers come from animals that have not been subjected to any unnecessary harm. It is our hope that the standard can be used to reward and influence the down and feather industry to incentivize practices that respect the humane treatment of ducks and geese. We believe that education – through the RDS – is a meaningful."

SKI

# IF YOU LOVE SKIING, THIS IS THE PERFECT PLACE FOR YOU

The ski collection for AW25 has taken influence from free ride skiing, mountaineering and fashion ski. For skiers who demand the latest design and do not want to compromise on technicality and practicality.

JUNIOR

IT IS A HAPPY TALENT TO KNOW  
HOW TO PLAY, LET'S DO IT IN  
HEAVY WEATHER.

As much as we want to inspire adults to be out in nature, it is even more important for us that children and young people are outdoors and experience the fantastic surroundings we have, and off course be well equipped with clothes adapted for play and discovery.

# FIT GUIDE

All measurements refer to body size,  
not to garment dimensions.

## CHEST

Measure around the widest part of chest.  
Below the armpits.

## WAIST

Measure at waist line / In the middle of  
the ribs & hip bone.

## SEAT

Measure around the largest  
circumference at seat.

## INSEAM

Measure from the crotch down to middle  
of ankle and the floor

**WOMEN**

# FABRICS AW25

## Q.B TEX 15.000 3-LAYER RECYCLED **NEW**

Recycled 3-layer laminated fabric made with PET-bottles & our advanced Q.B TEX TPU membrane technology, that gives a superb garment in highest quality. It is both soft and comfortable while providing outstanding breathability and protection against water and wind.

Water resistance: 15.000 mm  
Breathability: 15.000 g/m<sup>2</sup>/24 h

## Q.B TEX 10.000 STRETCH RECYCLED

Recycled fabric made with PET-bottles in our advanced Q.B TEX TPU membrane technology, that gives a superb garment in highest quality. Water and windproof fabric with high breathability.

Water resistance: 10.000 mm  
Breathability: 8.000 g/m<sup>2</sup>/24 h

## Q.B TEX T8 STRETCH RECYCLED **NEW**

Recycled 2-layer fabric with T8 tech yarn that provides high elasticity. A smooth and soft hand feel with water & windproof properties. Our advanced Q.B TEX TPU membrane technology gives a superb garment in highest quality.

Water resistance: 10.000 mm  
Breathability: 5.000 g/m<sup>2</sup>/24 h

## Q.B TEX 8.000 OXFORD RECYCLED

Recycled fabric with a robust surface. The Q.B TEX TPU membrane technology together with durable nylon oxford weave, gives a superb garment in highest quality. Water and windproof fabric with high breathability.

Water resistance: 8.000 mm  
Breathability: 5.000 g/m<sup>2</sup>/24 h

## Q.B TEX T8 10.000 SMOOTH **NEW**

A 2-layer fabric with T8 tech yarn that provides high elasticity. A smooth and soft hand feel with water & windproof properties. Our advanced Q.B TEX TPU membrane technology gives a superb garment in highest quality.

Water resistance: 10.000 mm  
Breathability: 10.000 g/m<sup>2</sup>/24 h

## HYTEC 5.000 SHEEN RECYCLED **NEW**

Recycled fabric made with PET-bottles in our advanced Q.B TEX TPU membrane technology, that gives a superb garment in highest quality. The fabric has a semi-shiny finish which is both smooth and pliable. The fabric is wind and water repellent with good breathability.

Water resistance: 5.000 mm  
Breathability: 5.000 g/m<sup>2</sup>/24 h

## HYTEC 5.000 PONGEE RECYCLED

Recycled fabric with a micro porous coating applied on a high tech twill weave in polyester. Which gives the garment an outstanding waterproof function combined with good breathability and nice structure.

Water resistance: 5.000 mm  
Breathability: 3.000 g/m<sup>2</sup>/24 h

## HYTEC 5.000 MATTE

A high durability polyester fabric with a matte finish which is both soft and pliable. The fabric is wind and water repellent with good breathability.

Water resistance: 5.000 mm  
Breathability: 3.000 g/m<sup>2</sup>/24 h

## HYTEC 5.000 JEANS RECYCLED

Recycled fabric designed for a relaxed jeans look with a micro porous coating applied on a high tech polyester weave in. Which gives the garment an outstanding waterproof function combined with good breathability and nice structure.

Water resistance: 5.000 mm  
Breathability: 3.000 g/m<sup>2</sup>/24 hz

## NYLON RIPSTOP 5.000

Wind-breaker ripstop 2-layer laminated fabric in 100% nylon double-grid. This gives the garment a great waterproof function combined with good breathability.

Water resistance: 5.000 mm  
Breathability: 3.000 g/m<sup>2</sup>/24 hz

## **SOFTSHELL 8.000**

**3-layer bonded softshell fabric with TPU membrane and fleece backside that gives good comfort and protects you from wind and water in any weather.**

Water resistance: 8.000 mm  
Breathability: 5.000 g/m<sup>2</sup>/24 hz

## **NYLON RECYCLED**

**Fine lightweight windproof fabric in 100% recycled Nylon used for down and tech-down jackets.**

## **SHINY NYLON RECYCLED**

**Wind-breaker ripstop fabric in 100% recycled nylon double-grid. This gives the garment a great waterproof function combined with good breathability.**

## **T8 PLAIN**

**A 2-layer fabric with T8 tech yarn that provides high elasticity. A smooth and soft hand feel with water & wind repellent properties.**

## **WELDED PONGEE LT**

**Soft windproof fabric used for down and tech-down jackets**

## **WELDED PU RECYCLED**

**Strong durable recycled PU with 100% waterproofness. Used for tech-down jackets with ultrasonic seams which protects you from cold and water in any weather.**

## **RECYCLED PU**

**Strong durable recycled PU with 100% waterproofness. Used for raincoats with ultrasonic welded seams.**

## **MOUNTEX**

**Durable water-repellent material with a comfortable and compliant feel. The cotton mix contributes to a characteristic look where each garment becomes unique according to usage.**

## **QUICK DRY DOUBLE FACE**

**Superlight and comfortable stretch fabric with high breathability and transportation of perspiration. Quick dry qualities with properties suitable for outdoor wear.**

## **QUICK DRY**

**Durable and comfortable stretch fabric with high breathability and transportation of perspiration. Quick dry qualities with performance properties suitable for outdoor wear.**

## **L.M.P 190**

**Light Micro Polyester fleece for warmth and transportation of perspiration. L.M.P is quick drying, remains warm and keeps the insulation ability even when wet.**

## **KNITTED FLEECE MELANGE RECYCLED NEW**

**Recycled soft and comfortable stretch fabric with a nice fleeced backside for warming capabilities, good breathability and suitable as a midlayer.**

## **POWER STRETCH FLEECE RECYCLED**

**Recycled flexible and soft material with fleece backside for our new midlayers.**

## **PILE FLEECE**

**Soft, warm & comfortable pile fleece with a fuzzy look. Insulation abilities for layering and it is optimal for Street and Outdoor.**

## NOTES

## NOTES

The logo for Five Seasons. It features the word "Five" in a large, flowing, cursive script font. A thin horizontal line arches over the top of the "F". Below "Five", the word "SEASONS" is written in a smaller, all-caps, sans-serif font. Underneath "SEASONS", the words "SINCE 1982" are written in a smaller, all-caps, sans-serif font.
